Projects:

React Blog
Deployed: https://bit.ly/3LxrBoA Repo: https://bit.ly/3dvfEmL
React and Node front-end blog mockup, deployed via Heroku.

Case Study
Deployed: https://bit.ly/3qWbo2R Repo: https://bit.ly/3DJd5IK
UX Case Study including UX research, personas, wireframes, usability studies, prototypes, mockups, and sticker sheets. Made using Figma and Adobe XD, as well as a deployed gallery through Github, built with HTML, CSS, and JavaScript.

Community Canvas
Deployed: https://bit.ly/3CthrQx | Repo: https://bit.ly/3k2TZCE
Community Canvas is a full stack application developed for users to upload and view photos of street art, created with JavaScript, Sequelize, and MySQL. This role focused on learning to use Cloudinary as a digital assets management platform, as well as creating a mobile-first design.
