Relevant Employment:

Web Specialist : ECFMG   Philadelphia, PA   July 2022 - Present
https://www.ecfmg.org/ | https://www.faimer.org/

Responsible for building new components, maintaining existing applications, improving accessibility, developing remotely within a team using Git version control, completing work packets through Trello, and completing sprints through Azure DevOps.

- Attends daily huddles with the editorial staff and standups with the front-end team, as well as planning meetings to coordinate with the larger communications department.
  - Participates in standups for Azure DevOps sprints.
- Works on a team of four developers. Interfaces with a second team of six developers.
  - Builds new components using JavaScript and XML
  - Debugs existing components
- Refactored and migrated legacy sites using modern frameworks.

- See EPIC project: https://www.ecfmg.org/psv/ for full refactor of an old site. Completed four days ahead of schedule.
  - Uses CSS and Bulma to integrate multimedia, as well as create new buttons and other components.
    - Follows branding and style guidelines for all work packets.
  - Formats content for HTML emails, and integrates WordPress into larger PHP sites.
  - Completed Salesforce Developer training modules up to "Trailhead Ranger" level.
- Tools: Trello, Azure DevOps, Microsoft Teams, HTML, JavaScript, XML, CSS, SCSS, Sass, Bulma, PHP, WordPress, XHTML, htaccess, Regex, Git Bash, AutoRabit, Salesforce, Markup, Microsoft Word, Adobe, Photoshop, User Stories, UX

Venue Manager : Kung Fu Necktie   Philadelphia, PA   March 2015 - July 2022
Promoted from bartender to keyholder to manager for a live music venue. Coordinated event staff (booking, security, sound, and bar.) Engaged and retained new clients. Curated artist and guest experiences. Assisted with construction and renovation projects.
- Tools: Google Calendar, Google Sheets, PrismFM, Social Media, Ticket Fly, Eventbrite

Education:

University of Pennsylvania - Full Stack Web Development Certificate
May 2021 - August 2021
- Completed over 20 applications.
- Contributed to three group projects.
- Graduated from the full-time program with a 3.4 GPA
- Built several full-stack applications.
- Built middleware, API's, and server-side applications.

Google UX Design by Google on Coursera
Certificate earned January 25, 2023
- Created paper wireframes and prototypes
- Created User Stories, Problem Statements and Personas
- Created digital wireframes and prototypes using Figma and Adobe XD
- Created high-fidelity mockups and prototypes using Figma and Adobe XD
- Presented work as case studies and deployed through Github

University of Maryland Baltimore County - BA in Music, Recording Emphasis
Linehan Artist Scholar Program

Projects:

React Blog
Deployed: https://bit.ly/3LxrBoA Repo: https://bit.ly/3dvfEmL
React and Node front-end blog mockup, deployed via Heroku.

Note-taker
Deployed: https://bit.ly/3NeDWyJ Repo: https://bit.ly/3zk6Fwk
Note taking app created with Node, Express, and FS, deployed with Heroku.

Community Canvas
Deployed: https://bit.ly/3CthrQx | Repo: https://bit.ly/3k2TZCE
Community Canvas is a full stack application developed for users to upload and view photos of street art, created with JavaScript, Sequelize, and MySQL. This role focused on learning to use Cloudinary as a digital assets management platform, as well as creating a mobile-first design.
